

This year has been extremely challenging for health and care services across the country, and indeed for the workforce, our patients and residents. However, we have seen some fantastic examples of partnership working throughout the year and have implemented some programmes of work that we thought would take far longer.

This is thanks to you – whether you are a nurse, social care worker or a volunteer. You are making the difference and helping to deliver our collective vision:

“Working with you to make Staffordshire and Stoke-on-Trent the healthiest places to live and work”.

Together We're Better is a partnership and here are some of your highlights during 2020.

Thank you.

2020 Highlights

26 Primary
Care Networks
(PCNs) created

**First People's
Panel survey
released –**

225 responses
